

Career Pathway Spotlight: Food and Nutrition

In this pathway, students discuss the basic chemistry concepts of food science and evaluate the effects of processing, preparation, and storage of the quality, safety, wholesomeness and nutritive value of foods. Upon completion, students can take the AAFCS Nutrition end of pathway assessment or the National Restaurant Association's end of pathway assessment and to potentially earn a ServSafe certificate.

Industry Spotlight: Georgia Apartment Industry Education Foundation

The Georgia Apartment Industry Education Foundation (GAIEF) is a private, non-profit organization that promotes career opportunities within the apartment industry. The mission of this organization is to attract people to the apartment industry and inform them about numerous career opportunities. The areas of opportunity include landscaping, electrical, plumbing, HVAC, marketing, sales, management, leasing and more! WBL

Instructors toured several communities to network and establish relationships in the industry.

Left to Right: WBL Instructors: Joi Bynum, Dr. Sherice Willis-Henry, Pam Harris and Youth Apprenticeship Specialist Greg Guhl.

Career Technology Student Organization

Featured CTSO:

Future Business Leaders of America (FBLA)

The mission of Georgia FBLA is to bring business and education together in a positive working relationship through innovative leadership and career development programs. The student organization FBLA aligns with high school pathways which include: Business and Technology, Financial Services, Accounting, Entrepreneurship, Web/Digital Design and Programming, along with Business Education and Career Development in middle schools.

Ambition to Complete the Mission

By Cadet Dasya Patrick, Forest Park High School
Air Force Junior ROTC, Unit GA-032

Air Force JROTC cadet-leaders at Forest Park High School graduated 42 incoming freshmen during the appropriately named New Recruit Academy (NRA). NRA Cadet-Staff Leaders trained recruits in three major areas of Physical Fitness Training (PT), Military Drill, and Academics. In addition, recruits earned two community service hours. The NRA Program's training goal is to fully equip 60 rising freshmen to serve as element leaders (leaders in the classroom) in six different first-year flights to assist instructors, flight leaders and their fellow first-year cadets to actualize the CCPS mission. The mission is to provide a globally competitive education that empowers students to achieve academic excellence, fulfill personal goals, and to become college and career ready, productive, and responsible citizens. The training agenda works to instill discipline, respect, and integrity in an effort to make these behaviors innate in recruits. From day one the phrase, "Have Ambition to Complete the Mission" was established. To have ambition is to have a strong desire to achieve something. The recruit's exemplified ambition the very moment they showed up!
